Flush-Glazed Construction

- 1 **Sticking Profile** – Provides a great fit with SDLs.
- 2 **Polyurethane Foam Core** – Helps provide durability and strength.
- 3 **Dual Adhesive Weather Seal** – Helps prevent air and water infiltration.

Tru-Advantages

Market-driven design to win more business.

- Meet growing market demand for 8'0" door heights and flush-glazed glass with this on-trend new door style that has broad appeal to suit many home styles.
- Satisfy more new construction and remodeling needs from fitting today's new homes with high ceilings to replacing existing 8'0" doors.
- Offer a more attractive and durable alternative to steel with the extended offering in this popular smooth fiberglass door line that's ready to paint – no buffing or priming required.

Aimed at creating sales opportunities.

- Offer a single source for whole house flush-glazed solutions with existing options for entry and patio doors.
- Cross over from entry to patio with this versatile design or pair it with other available flush-glazed door styles to complete the look around the entire house.
- Satisfy a variety of aesthetic and performance needs with a wide selection of specialty glass choices in divided lites, Low-E and clear.

Factory-built, seamless flush-glazed construction.

- Glass built directly into the door features clean lines and a seamless appearance with up to a 16% wider daylight opening than conventional lite frames.
- Crafted with attention to detail that delivers authentic wood door appeal with wide glass, narrow stiles and rails, and an authentic sticking profile.
- Delivers long-term performance with glass surrounded by the door's polyurethane foam core, helping to provide durability and strength.

Flush-Glazed Fiberglass Door Replacement Rider

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door and glass.
